

Computer Media Storage & Rotation Services

Controlled Temperatures & Humidity

Your critical computer media is safe, secure and easily accessed with National Records Centers, Inc. (NRC), a network of records storage and management service companies. Servicing North & Central America and Western Europe, NRC provides all hard copy and media storage services, single billing and volume pricing.

In every market we serve, we are dedicated to lead the industry with the highest standards. Internet access provides a quick and convenient way for you to manage your off-site media while simultaneously communicating your needs directly with the local service provider.

Fire Suppression Systems

Storage Vaults

Our daily, weekly and monthly delivery schedules are designed to match your computer media rotation requirements. Unlike safety deposit boxes in banks, NRC provides 24 hour access to your computer media, 365 days a year. Emergency delivery services are also available.

Schedule Rotation Services

NRC's delivery vehicles are equipped with environmental controls, two-way communications, and fire extinguishers to ensure the safety of your inventory while in transit. Pickups and rotation services are scheduled per your requirements.

24/7/365 Access

Escrow Services

Protecting your valuable intellectual property is as important to NRC as it is to you. Our offices and consultants will work with you to customize intellectual property escrow agreements between technology developers and licensees.
