

# Computer Media Storage & Rotation Services

*Controlled  
Temperatures  
& Humidity*

Your critical computer media is safe, secure and easily accessed with National Records Centers, Inc. (NRC), a network of records storage and management service companies. Servicing North & Central America and Western Europe, NRC provides all hard copy and media storage services, single billing and volume pricing.

In every market we serve, we are dedicated to lead the industry with the highest standards. Internet access provides a quick and convenient way for you to manage your off-site media while simultaneously communicating your needs directly with the local service provider.

**Storage Vaults**

Our daily, weekly and monthly delivery schedules are designed to match your computer media rotation requirements. Unlike safety deposit boxes in banks, NRC provides 24 hour access to your computer media, 365 days a year. Emergency delivery services are also available.

NRC's delivery vehicles are equipped with environmental controls, two-way communications, GPS and fire extinguishers to ensure the safety of your inventory while in transit. Pickups and rotation services are scheduled per your requirements.

All facilities are equipped with 24 hour electronic surveillance through the application of security technologies including bio-metrics, magnetic card access, closed circuit video, and other measures that ensure your media is Managed, Secure and Accessible.

*Fire  
Suppression  
Systems*

**Remote Backup & Restore**

NRC is a leading provider of electronic backup and restore services. These products and services allow a greater distribution between geographical areas that may require increased distance to ensure critical data is secure from wide area disasters such as earthquakes, hurricanes, and tsunamis.

**Escrow Services**

Protecting your valuable intellectual property is as important to NRC as it is to you. Our offices and consultants will work with you to customize intellectual property escrow agreements between technology developers and licensees.
